

ISLAND OBLITERATED

One of the New Hebrides Entirely Destroyed.

OTHERS SHATTERED TO PIECES.

The Entire Group Passing Through a Baptism of Fire, Earthquakes and Volcanic Disturbances—Frightful Loss of Life—An Entire Village Slumped Into the Sea. Details Are Still Wanting.

VICTORIA, B. C., Dec. 14.—The Australian steamer Warrimoo, which has just arrived, brings startling news that a majority of the islands of the New Hebrides group are passing through a baptism of fire, earthquakes and volcanic disturbances, threatening the very existence of several of the largest and best islands, including Ambrym, celebrated for the excellence of its coffee. On the latter an entire village of natives was recently carried into the sea, the loss of life being estimated at 60 to 75 men, women and children while in other islands of the group fatalities are also reported. A layer of ashes from two to six inches deep covers the once fertile fields.

At Epi, on Nov. 2, there was a severe earthquake in the early morning which opened an entire volcanic crater on the west side of Ambrym, and on the next day the whole island trembled. Since then it has opened in five or six different places. Even the island of Epi, which was much less affected, had to the 7th of November felt 63 distinct shocks, and for weeks had been covered by clouds of ashes and smoke. Traders and planters living on Ambrym island have fled precipitately to Port Sandwich (Mallicolp), the nearest port, in many cases abandoning all their possessions.

On the 18th of November an earthquake shock rocked Ambrym from east to west, causing the ground on which stood a small native village to slump with the houses of the inhabitants into the sea. It is impossible to accurately state the extent of the fatalities, but the lowest estimate of the loss of life is 50. Owing to the lateness of the disasters details were not available when the Warrimoo left the southern seas, although natives from all the volcanic islands were flocking to the centers of civilization for safety.

The special correspondent of the Sydney Morning Herald, writing from Epi early in November, said: "Ambrym island is still in violent eruption. The outbreak commenced on the 16th of October at an old crater in the center of the island. The center of the island is a mass of lava."

Commander-in-Chief Admiral Bowen Smith has given to the press the following report made to him by the commander of the Dart:

"While we were lying at Dip Point, Ambrym island," he writes, "an eruption on that island took place. It presently became evident that a lava stream, marked by a dense column of smoke, was making its way through the hills to the sea. The ship was stopped some 200 yards off shore, where it was seen the stream would emerge, and soon afterward tongues of flames were seen among the trees and presently the head of the stream appeared, a red-hot mass, with lumps of slag tossing about on the surface."

"When it reached the water a most magnificent scene ensued. A dense pillar of steam arose rapidly in a perpendicular direction to a height of about 4,500 feet. A few seconds later violent submarine explosions of steam took place, the water rising in huge bubbles, some 100 feet high and then bursting in all directions in radiating tongues of water mixed with black masses, presumably of lava. A considerable swell was sent out afterward, and as the area of explosion appeared to be extending rapidly the ship was moved to a safer distance."

"Canoes full of natives were leaving the island in all directions, some of which were taken in tow at Dip Point, where they were cleared of immediate danger. The ship then proceeded around to the south side of the island, when it was seen the old crater of Mount Maryun, in the center of the island, was in violent eruption, and that dense masses of smoke were rising over all the western island."

"On returning while round Dip Point a sudden outburst, accompanied by continuous violent explosions, took place. About two miles to the southward of Mission station the cliffs were seen to be falling inland, and flames appeared over the crest of the gap behind the Mission. The natives were assembled in terrified groups on the beach, and I accordingly sent boats in, offering to take off all that wished. The group was in a state of terror, and the noise of the eruption was indescribable. Dust and debris from the burning brush fell continuously. Throughout the next day earthquake shocks were severe."

"The next morning we proceeded to the northeast point of the island as far as Dip Point, which was found to be in inky darkness, objects being scarcely visible over a quarter of a mile. We communicated with the shore and found the natives reassured that the actual fires in the vicinity had ceased. At 6 p. m. we proceeded to Port Sandwich, not clearing the shower of dust till more than half across. Several shocks were experienced on the way, and in all 81 distinct shocks were felt in 7 hours and 30 minutes on board the ship, one at 2:30 a. m. being particularly severe."

"A great portion of the cliff at Dip Point has fallen into the sea, and all along the shore to the eastward clouds of dust are rising and landslides have occurred. Dust was now falling heavier

than ever, but of lighter color and finer description. Everything on shore was covered with the deposit, the landscape being of one uniform dull slate color and the ship a gray mass. We landed and proceeded over the hill for about two miles until the stream of lava was reached. Although cooled down, it is still proceeding at some four or five feet an hour in the direction of Banlag on the south coast. Owing, however, to the thickness of the atmosphere, it is impossible to get any news of what was happening. We then returned to Port Sandwich."

CONFLICTING WAR NEWS.

The London Times in Need of Some Reliable Correspondents.

LONDON, Dec. 14.—A dispatch to The Times from Tien-Tsin says that Prince Kung, president of the tsung li yamen, president of the admiralty and co-director in the war operations, has been appointed president of the grand council. This makes him virtually dictator, and will facilitate a settlement when the Japanese are ready to treat for peace.

Still, according to the Times' dispatch from Tien-Tsin the position of Li Hung Chang at Tien-Tsin is established on a firmer basis than ever. Even the Empress dowager has given him emphatic assurance of her confidence. After trying various alternatives the court finds that Viceroy Li Hung Chang is indispensable as he is the only capable man, the others being proved to be useless.

In conclusion, the Times' dispatch says that the season is late, and the river to Tien-Tsin is still open. But steamers have ceased going there.

China Still After War Vessels.

LONDON, Dec. 14.—A dispatch from Vienna to The Times says that China is still negotiating for the purchase of five Chilean men-of-war.

MURDERED IN HIS BARN.

A Prominent Citizen the Victim of a Horse Thief.

GORHAM, Me., Dec. 14.—Byron C. Coburn, a well known citizen of this place, 60 years of age, was murdered in his barn Thursday night, presumably by a horse thief, who was trying to steal a valuable trotting horse owned by Mr. Coburn. The body was found lying on the barn floor just before 7 o'clock Friday evening. The head was beaten and hewn by an ax, which lay by covered with blood and a lantern also besmeared with gore was discovered not far away extinguished.

About 6:30 Mr. Coburn heard a commotion in the barn in which the fast horse was quartered and started to investigate. When he failed to return, his hired man went to the barn and discovered the body. He at once gave the alarm and the entire town was organized into searching parties, but up to the present time nothing has been seen of the murderer, who took to the neighboring woods. It is thought the murdered man discovered the thief at work and was brutally murdered before he could cry out.

IRON HALL LITIGATION.

Receiver Failey Files an Answer to Attorney Howe.

INDIANAPOLIS, Dec. 14.—A. C. Harris, attorney for Receiver Failey of the Iron Hall, has filed a motion before Judge McMaster to strike out portions of the answer of D. W. Howe to the petition of the receiver for an allowance. The parts he wants struck out are the reference to \$16,000 bank stock, owned by Mr. Failey, the paragraphs setting forth the interests of Mr. Failey's bondsmen in the Merchants' National bank, and the litigation that the bank made \$50,000 from the deposit of a sum not less than \$500,000 continuously with it.

Mr. Harris, in a brief filed with the motion, says that one of the questions presented by the answer has already been adjudicated by the court having trust in charge. That was the question of deriving a benefit from the use of the funds. Mr. Harris says the court held that to direct the receiver to do anything with the funds other than have them ready for the order of the court would be to render his bond valueless, as that was all the bond was given for.

CONDUCTOR CLUBBED.

A Lively Battle on the Top of a Moving Freight Train.

NEW YORK, Dec. 14.—A lively battle on the tops of cars, resulting in a possible murder, is reported from Center, a little station on the Erie road, between Jersey City and Port Jervis. Conductor Tuoy, who was in charge of one of the freight trains, removed Brakeman Dooley for going to sleep while on duty. The brakeman, armed with a heavy stick, attacked the conductor. The men grappled while the train was running at a high rate of speed. To and fro they swayed, but the man with a club possessed a decided advantage. At Center the conductor was found on the top of the car insensible, the blood flowing from his head. It is feared he will not recover. Dooley succeeded in making his escape.

Attempted Train Robbing.

LINCOLN, Neb., Dec. 14.—A special from Malsland, in the wild prairie region of Daws county, gives meager particulars of an attempt at train robbery eight miles north of there at an early hour this morning. The engineer noticed red lights on the track, and stopped, but at that moment the light was extinguished, and a party of mounted men could be heard riding wildly away. The train was a freight. It is supposed that when the would-be robbers discovered this they rode off. The passenger occasionally carries large amounts of gold from the Black Hills region.

AN OIL DEAL CLOSED

The Standard Company to Have a Rival.

THREE BIG FIRMS COMBINE.

The New Company Will Begin Business With a Capital of From \$6,000,000 to \$8,000,000, and Will Make Toledo the Most Important Oil Center in the Ohio Field.

TOLEDO, Dec. 14.—A big deal was consummated here Thursday involving from \$6,000,000 to \$8,000,000, which will make Toledo the most important oil center in the Ohio field, and at the same time give the Standard Oil company a new and formidable competitor. It is a combination of three independent companies, with chances in favor of two more going into it.

The Sun Oil company of Toledo has the largest production of crude petroleum in Ohio except the Standard.

Its chief owners are Pew & Emerson of Pittsburgh. The next member of the combine in importance is the Merriam & Morgan Paraffine company of Cleveland, and the third is the Crystal Oil company of Toledo.

The two others which will probably enter are the Paragon Refining company, both of Toledo. The first three named have absorbed the Crystal Oil company, which owns a good refinery here, and the name of the new concern is the Diamond Oil company. J. B. and E. B. Merriam, James W. Stewart, John G. White and A. M. Beckwith are the incorporators.

The Merriam & Morgan company are not refiners, but have been big manufacturers of by-products from pitch.

The new concern will manufacture all products from the crude to candles. It will erect new buildings for this work and enter the field as the strongest competitor the Standard has.

A. W. Machen, of the postoffice department at Washington, and George E. Lorenz are owners of the Crystal Oil company, which is absorbed. George H. Van Vleet, the rich producer and refiner of Buffalo, is the chief owner of the Paragon, which now operates a big refinery here.

An oil pipe line will be laid to Toledo from Merrill, near Cygnet, O., at once.

The new concern will refine by the Berg process, which, it is claimed, eliminates the sulphur from the Ohio oil and thus makes it the superior of the Pennsylvania product. Deeds have been recorded here and the deal is closed.

MAD DOG VICTIMS.

Twelve People Sent to Chicago to Take the Pasteur Treatment.

MOUNT VERNON, O., Dec. 14.—Last night this city sent to Chicago to take the Pasteur treatment at public expense, Mrs. Tobitha Varrhoden, John W. Bunnell, Columbus Mitchell, John Brown, James H. Parke, W. Edward Singer, Fleming Jackson, colored, Earl H. Davis, Gordon Wolfe, Sherman Chase and Willie Wolfe, all of whom were bitten by the mad dog, which was killed here Saturday night.

Health Officer Bunn had charge of the party, and Mrs. William Wolfe, mother of Willie Wolfe, aged 5, and Obadiah Chase, father of Sherman Chase, aged 11, went along to take care of their children. The injuries of John Brown, John W. Bunnell and Earl Davis are considered dangerous in themselves. The party will be gone 15 days.

Suicide in Jail.

SAN BERNARDINO, Cal., Dec. 14.—Thomas Saltner, the poisoner, committed suicide in jail here last night by taking poison. Saltner was the paramour of Mrs. Samuel Barnes and conspired with her to kill her husband. Barnes was taken ill and Saltner nursed him. Barnes grew steadily worse and finally his physicians discovered he was being poisoned. Mrs. Barnes was accused and confessed, implicating Saltner. Barnes recovered but his wife is in jail awaiting trial for having poisoned her husband. Saltner was charged with having successfully poisoned several other persons in the same way that he treated Barnes.

Bank Wreckers Found Guilty.

CHICAGO, Dec. 14.—The jury in the case of Frank R. and Charles J. Meadowcroft, the private bankers of this city, who have been on trial for several days on charges of receiving deposits when they knew their bank to be insolvent, brought in a verdict shortly after midnight finding them guilty. They are fined \$28, and sentenced to one year each in the penitentiary.

Ravages of Diphtheria.

COLUMBUS, O., Dec. 14.—A letter from Dr. A. W. Hopkins of Ashtabula, received at the office of the state board of health, gives the details of the terrible ravages of diphtheria in that city. The disease began on Dec. 6, and up to the present there has been 57 cases and seven deaths. The authorities are doing all possible to stamp out the disease.

Collision on an Elevated Railroad.

BROOKLYN, Dec. 14.—A collision occurred on the Brooklyn Union Elevated road yesterday evening. The accident took place near the corner of Nostrand avenue and Lexington avenue. No. 9 crashed into the last car of the preceding train. Mrs. Eliza Sinner, aged 28, residing at 187 Arlington avenue, was seriously injured by the breaking of windowglass. Daniel Van Otten, a brakeman, was also badly hurt. Several others were injured.

LYNCHING FRUSTRATED.

A Train Held Up and Searched For a Convicted Murderer.

PADUCAH, Ky., Dec. 14.—A mob of 50 masked men boarded the Chesapeake, Ohio and Southwestern train at a crossing on the outskirts of town about midnight and attempted to take Sam Owens, colored, from the officers. Owens received a life sentence the day before for the murder of Sam Oglivie last September, and the officers were on their way to the Eddyville penitentiary with him. The train stopped at the crossing and the engineer and firemen were quickly covered with pistols and compelled to leave the cab. The air brakes were cut and several shots fired. The passengers hurried away from the car containing the prisoner, who was locked in the water closet. The windows and doors of the car were soon smashed and the mob rushed in with drawn revolvers. Deputy Grady was knocked down with a large club, which was hurled at him through the car window.

The officers were powerless to resist the attack made by the mob, and set about to get the train started again. A desperate effort was made to force open the door to the water closet, but before this was done Deputy Sheriff Potter had taken the fireman and engineer back to the cab and compelled them to start the train. When this was done the mob left the train without securing the murderer.

The rope which had been provided was left in the car. The officers encountered no further trouble, and the prisoner was landed safely in the penitentiary.

SIR JOHN THOMPSON'S BODY.

It Will Be Brought to Canada For Interment.

MONTREAL, Dec. 14.—It is generally understood that Sir John Thompson's body will be brought from England by way of New York. A funeral service will be held in Ottawa and interment will be in Halifax. The late premier had insurance on his life amounting to about \$30,000, but apart from this he left hardly any money. At the time he left the bench to become minister of justice he was guaranteed a certain amount of money by the party, but whether he received this or not, he spent it long ago.

Lady Thompson will receive an allowance from the government. The Baroness McDonald received \$20,000 on the death of Sir John, and Lady Cartier, the widow of Sir George Cartier, is still living at Cannes, France, on a government pension of \$1,500 a year.

Lord Aberdeen left for Ottawa at 10:50 yesterday to meet Hon. McKenzie Bowell, the acting premier. Lady Aberdeen accompanied him to pass some time with Lady Thompson.

GIVEN UP FOR LOST.

Ex-Minister Grant Will Probably Never Be Heard From.

PORT TOWNSEND, Wash., Dec. 14.—The United States revenue cutter Richard Rusk has returned from her cruise along the shore of Vancouver island in quest of news concerning the missing Ivanhoe, which sailed from Seattle for San Francisco Sept. 27 with Fred Grant, ex-Minister to Bolivia and editor of The Seattle Intelligencer, as a passenger.

At Nettle island a life buoy belonging to the Ivanhoe was obtained from the natives who had found it several weeks ago. The stern end of a ship's dingy boat and some other small fresh wreckage were found in the vicinity of Barclay sound, but nothing further than the buoy to indicate that it belonged to the Ivanhoe. The Rusk's cruise extended to Cape Scott. A succession of heavy gales were encountered. Captain Hooper of the Rusk says he visited every settlement and trading port, making diligent inquiry and offering inducements to the natives for information, but he was unable to find any trace of the castaways on the island.

Dempsey in New Orleans.

NEW ORLEANS, Dec. 14.—Jack Dempsey, the famous boxer, who is to meet Tommy Ryan in a glove contest before the Auditorium club, in this city, next Saturday evening, arrived Thursday from Savannah, Ga., where he has been training. Dempsey is in apparently perfect condition. He was met at the depot by Captain Williams and Mr. Spoel of the Auditorium and escorted to his rooms on Rampart street. Ryan has been made the favorite in the betting by the Chicago and Detroit contingents, but Dempsey stock will probably improve now as investors will have an opportunity of seeing him, judging for themselves as to his condition.

Bank Closed Up.

KEARNEY, Neb., Dec. 14.—The Kearney National bank closed its doors yesterday. The liabilities, as near as can now be ascertained, are about \$135,000; the county loses \$10,000 and the city \$2,000. The suspension was caused by a rumor set afloat three or four days ago, when it was alleged a couple of the directors made large transfers of property. There has been a steady pulling out since then rather than a sudden or unexpected run. None of the business houses have closed so far and there are no indications of a run on the other banks.

Cash in the Treasury.

WASHINGTON, Dec. 14.—The cash balance in the treasury yesterday was \$155,025,331; net gold \$104,833,023. This, however, does not include withdrawals Wednesday and yesterday, amounting to \$8,750,000, leaving the true amount of the net gold balance \$101,183,023.

Employee Can Not Be Garnished.

MILWAUKEE, Dec. 14.—Judge Jenkins has issued an order prohibiting the garnishing of the wages of an employee of the Northern Pacific road during the life of the receivership.

SPIRITED DISCUSSION

An Eventful Day Among the Labor Leaders.

GETTING DOWN TO ACTIVE WORK.

A Number of Resolutions Passed by the American Federation of Labor at Their Denver Convention—Free Coinage of Silver Favored—Eight-Hour Movement. Details of the Convention.

DENVER, Dec. 14.—Upon the assembling of the convention of the American Federation of Labor Thursday the executive committee submitted the following schedule of dates for meetings to be addressed by John Burns to be substituted for the one submitted Wednesday: Omaha, Dec. 17; Chicago, Dec. 19; St. Louis, Dec. 21; Indianapolis, Dec. 22; Cincinnati, Dec. 23; Nelsonville, O., Dec. 24; Detroit, Dec. 25; Cleveland, Dec. 26; Pittsburgh, Dec. 27; Washington, Dec. 29 and 30; Philadelphia, Dec. 31; Boston, Jan. 2. The report was adopted.

The following telegram was received from Miss Frances Willard, president of the W. C. T. U. "Greetings to the convention; White Ribbons send fraternal delegates earliest sympathy. Honest, hard work is the only royalty." The auditing committee reported: Receipts of the year, \$15,346; balance on hand, Nov. 1, 1893, \$7,147; total, \$22,493. Expenses Nov. 1, 1893, to Oct. 31, 1894, \$17,302; balance on hand Nov. 1, 1894, \$5,191.

A spirited discussion was precipitated by the report of the resolutions committee, in favor of adoption of a resolution introduced by Edward L. Daly, of the lasters union of Boston, asking congress to pass a law making it an offense punishable by fine and imprisonment for any employer to employ during a strike or lockout of his employees, aliens who have resided in this country less than one year, who have not expressed an intention of becoming American citizens.

After some discussion a substitute was offered that the resolution be referred to the incoming executive council with instructions to secure legal advice regarding the constitutionality of such a law, if passed.

Delegate Elderkin asserted that such a proceeding was useless, as no law favorable to labor would stand in any court in the country. Mr. Brettalle said that more laws for the benefit of labor were useless unless the men can be elected to enforce such as now exist. Mr. Evans opposed the resolution on the ground that strikes are not considered legal. The substitute was adopted.

The resolutions committee recommended the adoption of a resolution, endorsed by the typographical union, against land monopoly. The report was adopted.

The committee on resolutions also recommended the adoption of Delegate Lloyd's resolution in favor of free coinage of silver. The preamble covers much of the argument of the advocates of free coinage and demands the reenactment of the law in force before 1873, regardless of the action of any other nation. It was adopted.

The committee on the president's report submitted its report. It warmly endorsed the action of the president in the American Railway union strike and the various recommendations of the report. It was recommended that May 1, 1895, be fixed for the general establishment of an eight-hour day. The proposed compulsory arbitration law was vigorously opposed. Delegate Penna moved to strike out that part of the report favoring semi-annual conferences with the Knights of Labor, and made a strong speech condemnatory to that order. The consideration of that part of the matter was deferred until after the report of the committee on conference. With this amendment the report was adopted.

President Gompers read a dispatch from Chicago containing an alleged interview with E. V. Debs, in which he denied having asked Gompers to aid him in the strike. Mr. Gompers explained that he had never stated such a thing. Said he: "When, during the Chicago conference, I asked him 'what would you have the Federation of Labor do?' he said 'if I were in your place I would order the workmen of America to walk out.'"

The report of the committee on the secretary's report was submitted and adopted. It recommended the setting aside of 15 per cent of the revenue as an assistance fund, and that a deficit of \$1,371 in that fund be replaced from the general fund.

A resolution against the issuance of money by monopolies was introduced by Delegate McGrath and referred.

The committee on resolutions recommended the adoption of resolutions favoring state employment agencies and endorsing the McGrath bills for the relief of seamen. Delegate Furness made an address explanatory of the condition of the American seamen, who, he said, is subject to a worse system of involuntary slavery than is known elsewhere on earth. The matter was referred to a special committee, consisting of John Nugent, W. D. Mahone and Mrs. T. J. Morgan, with instructions to formulate a plan to accomplish the result desired.

Cleared but Killed.

LEXINGTON, Ga., Dec. 14.—The assassination of Edward Faust is reported here. This news comes directly after his acquittal here of the murder of Sells Cunningham, a companion who had offended him by beating him in a swimming match. It is supposed that the assassin must have been the work of some of the friends of the man whom he had slain.

OPponents of the income tax were loud in their claims a few weeks ago that they would prevent the tax from being collected by defeating the appropriation to enforce the law. They are not talking so loud now. The appropriation passed the House by a vote of 127 to 54.

A NUMBER of contested elections all over the State are growing out of the recent landslide. In many places the vote was very close, and a few contested votes will change the result one way or the other.—Fleming Gazette.

Now please tell us how you are going to get at these contested votes?

A MOTION to take up the bill to repeal the one-eighth of a cent protection now enjoyed by the sugar trust was defeated in the Senate, and with one exception every Republican Senator voted for the trust. The people will get their eyes open after awhile. Read the article elsewhere in regard to this sugar trust.

THE last dividend declared by the sugar trust is at the rate of 12 per cent. a year on the common stock and of 7 per cent. on the preferred stock. There is \$37,500,000 of each, says the Hunterdon (N. J.) Democrat, so that at this rate the dividends to the stockholders for the year will amount to \$7,125,000. As the owners of the trust have invested only \$10,000,000 they will thus receive 71½ per cent. on their capital this year.

THE SUGAR TRUST.

With the possible exception of its illustrated pamphlet giving export discounts on protected manufactures, and published some years since, the pamphlet on the Sugar Distribution Combine by Hon. John De Witt Warner just issued by the Reform Club, of New York, is perhaps the most interesting of its wide known series.

Treating as it does of a subject as to which vague intimations have for years been made on every hand, it presents the summarized results of an investigation reaching every corner of the United States and based upon what is evidently an enormous collection of original documents—including accounts, correspondence, minutes and proceedings of local organizations—which lay open to view the workings of the sugar trust, from its very inception, along the lines in which it most directly affects the American people.

The secret history is given of a complete system of wholesale grocers' associations, each subsidiary to the sugar trust and paid by it a generous commission on condition of their keeping the price of sugars up to the point dictated by the trust; while the copies of correspondence and accounts furnished leave nothing to be desired in the way of accurate detail.

The author's conclusion is perhaps the best summary of the details given:

With the Spreckles in control of Hawaii, and the Havemeyers extending their plantations in Cuba, the trust dictates to every branch of sugar production and distribution in the United States, taking under its wings every one concerned—except those who consume sugar. From its office, at 117 Wall street, cable messages fly daily to its agents in Cuba, fixing the price of raw sugars there; to San Francisco announcing 'Cuban parity,' at which arriving Hawaiian sugars are to be valued; to Louisiana, telling her planters what—in view of Cuban and Hawaiian prices—the trust condescends to offer for American sugar; and to its representatives all over the world, giving the limit—based on Cuban parity—at which they can pick up Austrian, Javan, Philippine, Brazilian and other sugars, when these are temporarily depressed in price. In an adjoining room the quotations at or above which the subservient dealers throughout the country are permitted to sell sugars, are daily settled and through the four great sugar brokers who stand nearest the throne these are passed to the forty others who await the sugar trust's nod at New York and telegraphed to the waiting hundreds in other cities of the land. These in turn so promptly notify their patrons, the thousands of wholesale grocers of the country, that before their doors are opened all danger of any purchaser getting his sugar below trust prices is over for the day. By discount from his bill or periodical remittance, as the case may be, each faithful wholesaler is promptly and liberally paid for his loyalty; and whenever, in the crisis of legislation, he hears the bugle call of the trust, he instantly steps into line, ready to bombard his Congressman with telegrams or fight him with ballots at short range until the sugar trust cause is triumphant.

Such is the grandest trade organization the world has ever seen.

The sugar trust dictates the tribute that shall be rendered it by the American people.

And the public?—The public be damned!—and it is.

A good advertisement is the best solicitor. It appeals to the people who may want what it sells about, but does not intrude upon people who care nothing about the thing.

HI! THERE, BR'ER DAVIS,

See What the President "Has Done Gone and Done"—With the Revenue Offices.

The new extension will embrace 518 storekeepers, 578 gaugers, 1,190 storekeeper-gaugers and 185 clerks in the offices of the Collectors, making 2,471 in all. Deputy Collectors, of whom there are 963, are not included in this order, nor are the deputies which will be appointed to assist in the collection of the income tax. Of the latter, there are expected to be 197 for field work and 53 for service in the office of Collectors.

Under the new order, W. C. Johnson, H. P. Chenoweth, T. J. Pickett, Harry Taylor, Charles Wood, Hal Wood and Edward Forman, of this city and county, are placed in the classified service, and are now under the protecting wing of the Civil Service Commission.

President Cleveland, after an extended conference with Secretary Carlisle and Internal Revenue Commissioner Miller, issued an order Wednesday which has been in contemplation for some time, putting storekeepers, gaugers and clerks in offices of Collectors of Internal Revenue in the classified Civil Service. This increases the list of persons who are thus protected by the Civil Service by about 2,500.

MR. REED CALLS A HALT.

His Friends Were Rather Overdoing It in Speaking Slightly of the McKinley Law.

WASHINGTON Dec. 7.—Ex-Speaker Reed is finding it no easy task to keep his enthusiastic friends from involving him in serious embarrassment. In some way the impression got abroad that Mr. Reed was against any tariff bill like the McKinley law, and his Republican friends began to get interviewed to the effect that the party would never re-enact the McKinley manufacturers' bill.

Chairman Babcock went too far in his interview given to the Press Association, and he was sharply taken to task for it. He said that not one Republican in five was really in favor of the bill when it passed. Boutelle and several other Republicans got after Babcock to-day and asked what platform the Republicans had really won on. Mr Reed had a long talk with Babcock, and told him that his interview was a mistake. Then Mr. Babcock came out and repudiated the interview, though it had been stenographically reported.

Mr. Reed said to-day that he was as much responsible for the passage of the McKinley law as its author, and that it was a mistake for any one to suppose that he would be pleased to have his Republican friends criticize it. A few minutes later Mr. Apsley, of Massachusetts, Vice-Chairman of the Republican Congressional Committee, who has talked in the same strain of Babcock's interview, repudiated the statements which he made over his signature some weeks ago.

Mr. Reed is going to have a hard time managing his friends. This is already apparent.

The Columbia Desk Calendar.

For ten years the desk calendar issued by the Pope Manufacturing Company has held a unique place among business helpers. Each daily leaf during that time has taught its quiet lesson of the value of better roads and outdoor exercises, and especially the benefits of bicycling. The calendar for 1895, which is just issued, is even brighter than its predecessors in appearance, as clever artists have added dainty silhouette and sketch to the usual wise and witty contributions that have heretofore given this popular calendar its charm. It can be had for five two-cent stamps from the Pope Manufacturing Company, Hartford, Conn., or from any Columbia bicycle agency.

"AN OUTRAGE."**That's What Harris, the Fuel Gas Man, Says of His Arrest—Latest Developments.**

W. H. Harris, the fuel gas man whose arrest was mentioned yesterday, appears very anxious to keep away from New York where he is wanted to answer an indictment. His attorney, Colonel Michie, of Covington, says Harris had anticipated the arrest, and he had already written Governor McKinley about the requisition papers. Colonel Michie says that an effort is being made to get Harris back to New York through a criminal process in order to serve him with a civil process.

The Enquirer had another talk with Harris. He said: "You may state that my arrest was an outrage. I came here to go into business and to recover my patents, and the treatment to which I have been subjected is simply shameful. My attorneys will commence habeas corpus proceedings at once, and the petition is now being prepared. This is an awful predicament for me to be in after all I have tried to do for the stockholders of the American Gas Company."

"I was very much amused at the statement made by Messrs. Huston and Hardin.

"Talk about me peddling out my stock. Why, such a claim is nonsensical. I sold \$100 worth of American Gas Company stock here and \$2,500 worth in Brooklyn, and that is all the stock I ever sold for money. I acknowledge that I traded some stock for some lots at Chautauqua, a suburb of Washington, D. C. This property I still own.

"The fact of the matter is, that while I was trying to uphold the credit of the American Gas Company the other stockholders were peddling out their stock. I understand that \$42,000 of this stock was disposed of in Duluth, Minn., at \$25 a share. Stock was also sold in Indianapolis, and I am told about \$40,000 worth in Madison, Ind. About \$200,000 of the American Gas Company stock was sold in Ft. Wayne, Ind. Considerable of the stock was also disposed of at Harrodsburg, Ky. I certainly did not sell any of this stock. Maybe some one else can tell you who sold it."

NEW YORK, December 12.—W. H. Harris was indicted here on November 1, 1894, on information supplied to the grand jury by Attorney Charles F. Blandin, who has an office in the Potter Building. Blandin is also an insurance agent for the Mutual Reserve Fund Company. He is said to claim losses by Harris aggregating about \$5,000, as an offset to which he holds some thousands of shares of gas stock, the value of which is questionable at the present time. To get quick legal action on Harris he has sworn to a loss of \$2,500.

The deal between Blandin and Harris began last spring. Harris then claimed to represent the General Electric Gas Company, and to be the owner of 30,000 shares of stock in the Canisteo (N. Y.) Electric Fuel and Gas Company. He also, he said, owned the inventions and appliances used by these companies. He held out glittering inducements to Blandin, and also promised him honors in the way of a Presidency.

With the understanding that he was to have a half interest in the company, with a prospective Presidency, he, on March 9 of this year, gave Harris \$2,500 and received a carpet-bag full of stock. He made subsequent investments of one kind or another until he was in for it to the amount of \$5,000. When he realized that his venture was not what he had hoped for he entered complaint at the District Attorney's office on which an indictment was found six weeks ago.

Harris was then in Washington, and while steps were being taken to extradite him from there he was given a tip and disappeared. He was next heard of in Cincinnati, where he was arrested yesterday.

The Modern Mother.

Has found that her little ones are improved more by the pleasant laxative, Syrup of Figs, when in need of the laxative effect of a gentle remedy, than by any other, and that it is more acceptable to them. Children enjoy it and it benefits them. The true remedy, Syrup of Figs, is manufactured by the California Fig Syrup Co. only.

HICKS says "a regular storm period is central on the 15th, exacting a change to warmer, with southerly winds and falling barometer in western sections about the 13th. From about the 14th to 18th, a marked continental disturbance will move eastward. Dangerous easterly gales will sweep in upon the Atlantic coasts, and over the high seas, and storms of rain, snow and wind will touch the whole interior of the continent. A cold wave with very high barometer will come behind the storms and remain in force until displaced by a return to storm conditions on or about the 20th and 21st."

PRIVATE VEHICLES.**Judge Harbison Rules That the Ordinance Licensing Them is Null and Void.**

An important decision was rendered in the Circuit Court yesterday relating to the city ordinance requiring a license on private vehicles.

In the Police Court a month or so ago 'Squire Wesley Vicroy was fined \$10 and costs for violating the new city ordinance requiring a license tax on vehicles. His lawyer, County Attorney Newell, made the point at the time that the ordinance was unconstitutional, so far as it affected vehicles used exclusively for private purposes; that such a license amounted to double taxation.

In the case against Mr. Vicroy, the vehicle on which he refused to pay license was a phaeton used by his daughter. He appealed from the decision of the Police Judge, and carried the case to the Circuit Court.

Judge Harbison heard the case yesterday, on an agreed statement of the facts, and decided that the ordinance of the city so far as same requires the payment of "a license tax on private vehicles used exclusively for private purposes was and is null and void," and that the judgment of the Police Court was and is null and void.

The license heretofore paid on such vehicles will now have to be refunded if the parties demand it.

FLEMINGSBURG's assessment this year foots up \$605,489 as against \$652,976 last year; a decrease of \$47,487. Of this decrease \$39,070 is money, \$7,106 personally and \$1,315 on real estate. There are 221 white votes and 94 colored. The population of the city as found by the Assessor, is 1,171, a decrease of 41 from last year.

THE Poplar Plains correspondent of the Fleming News says: "Elijah Hart's youngest boy attended a hog-killing and reported to his mother that they had killed six Campbellite and one Methodist hog. Asked for an explanation, he said they soused six of them in a tub but the seventh was so big that they had to pour the water over it."

FROM Middlesborough comes the news that Hon. John H. Wilson will tackle Hon. W. O. Bradley for the Republican nomination for Governor. From the same source comes the suggestion that Hon. R. D. Hill will be a candidate for Attorney General on the Republican ticket, and that William Morrow, of Somerset, is also looking for the same plum. Judge Denton, of Pulaski, has also loomed into view as a gubernatorial possibility. In fact, the whole Eleventh district is said to be swarming with Republican candidates.

THE Penn Disciple of Pittsburg says: "We are sorry to record the fact that Rev. C. S. Lucas, pastor of First Christian Church, of Allegheny, is again disabled. He has recently undergone a critical surgical operation for abscess on the brain, with assurance of a recovery in time, which we earnestly pray may be realized. We take this occasion to say that this is a case of overwork, pure and simple. Brother Lucas is one of the most devoted men we ever met. He fills Paul's measure of a faithful minister to the letter. But his large and active brain and restless energies have been too much for his light body, and like F. W. Robertson, of England, whom he greatly resembles, he is burning his life out in the midst of his years."

APPROPRIATION BILLS.

Three of Them Passed by the House and Progress Made on the Fourth.

WASHINGTON, Dec. 14.—The house passed three appropriation bills—the urgent deficiency, fortifications and military academy—and made fair progress on the pension bill. Mr. Cockran secured a record-making vote on the appropriation for the collection of the income tax by moving to recommit the bill, with instructions to strike it out, but his motion was defeated by 120 majority, the vote standing 49 to 169. The fortifications bill as passed carried \$1,879,057—\$3,478,646 less than the estimates, and the military academy bill, \$657,678—\$127,372 less than the estimates. The pension bill carries \$141,381,570—\$200,000 less than the estimates, and \$10,200,000 less than the appropriation for the current fiscal year.

The senate adjourned until next Monday. Practically all the time of the session was consumed in the discussion of the bill to establish a national university at Washington, and Vilas of Wisconsin addressed the senate in support of the former, and Mr. Morgan practically concluded his speech on the latter. During the day he asked the senate that unanimous consent be given, fixing a time for a vote on the bill, but this was refused.

SALOONKEEPERS LIABLE.

They Must Pay Damages For Injuries Received by Customers While Drunk.

INDIANAPOLIS, Dec. 14.—The supreme court has handed down a decision holding that a saloonkeeper may be held responsible for damages resulting to an intoxicated person who becomes intoxicated from the liquor purchased in his saloon.

The decision was rendered on a case that went up from Huntington county. Louis Gaus, a saloonkeeper at Huntington, was sued by Joseph Silvey for the death of a son of Silvey. The court said that a person who sets in action any dangerous power or force is responsible for the consequence.

MAID, WIFE AND WIDOW.

A Woman Consents to Marry a Man Going to Be Hanged.

CHATTANOOGA, Dec. 14.—General Kennedy, one of the murderers of the night telegraph agent of the Nashville, Chattanooga and St. Louis railway at Shellmound, who is to hang next Monday, was married in the county jail at Jasper Thursday evening to Miss Martha Taylor. Both General and John Kennedy are to be executed on Monday.

They are unrepentant and are blasphemous in the extreme. They swear at all who come near them. Both men prefer to believe that their sentence will be commuted. All arrangements have been made for the hanging, and there is no probability of a stay of execution, as the proof against them is conclusive of their guilt.

Killed His Wife and Shot Himself.

MONTGOMERY, Ala., Dec. 14.—News reached this city from Wharton's plantation near Wetumka, that Taylor Townsend, colored, who, last September, killed James Crenshaw, colored, and ran away, returned last night, quarreled with his wife, Mattie Taylor, an industrious colored woman, shot and killed her and then shot himself. He is not expected to live.

Accused of Assassination.

NASHVILLE, Dec. 14.—George Butler, father-in-law of W. L. Bromley of Henry county, who was called to his door and shot down Wednesday night, is suspected of the deed, and a warrant has been sworn out for his arrest by his daughter, the dead man's wife. Butler had accused Bromley of burning his barn.

Wanted to Join His Friends.

DENVER, Dec. 14.—Carl Sanden, a drug clerk, aged 21, who had relatives in McPherson and Liasbury, Kan., committed suicide yesterday by taking morphine. He left a note saying he wanted to join his friends, Dr. Curtis and Ole Lundstrum, who ended their lives in the same manner in this city a few years ago. Curtis and Lundstrum were also druggists and were both from Kansas.

Veterinary Surgeons.

ANDERSON, Ind., Dec. 14.—The Indiana Association of Veterinary Surgeons, which has been in session in this city, adjourned to meet in Marion next July. The election of officers resulted as follows: J. E. Cloud, Richmond, president; W. F. Myers, Fort Wayne, vice president; J. C. Rodgers, secretary.

Mississippi Populists in the Field.

JACKSON, Miss., Dec. 14.—At a secret conference last night, held behind closed doors, the Populist leaders of Mississippi decided to place a full ticket in the field for every office, from constable of each of the various counties up to the governor of the state, at the coming election.

Ex-Bank Cashier Arrested.

SALT LAKE CITY, Dec. 14.—A. B. Richardson, formerly cashier of the Park City bank and now a resident of this city, has been arrested on five indictments, charging him in each case with "fraud in keeping accounts of a corporation." He gave bail of \$500 on each charge.

Prisoners Attempt to Escape.

ELYRIA, O., Dec. 14.—Prisoners in the city lockup attempted to escape at noon yesterday by setting fire to the ceiling of their room. Over \$100 damage was done before it was discovered, and the opera house above narrowly escaped destruction.

Prominent Man Dying.

COLUMBUS, Ind., Dec. 14.—Dr. C. H. Butler, aged 78, a Knight Templar and a sergeant in the Fifty-third Indiana infantry and Fourth Kentucky cavalry, prominent in business and professional circles, was stricken with paralysis yesterday and is dying.

Another Veteran Gone.

VALPARAISO, Ind., Dec. 14.—Colonel Amasa Fuller, a veteran, died suddenly here yesterday. He was 70 years old, and resided here for 50 years.

RIVER NEWS.

Captain Edgington Buys the Reliance. The Veteran Captain John A. Wood in Town.

The gauge here reads 12 1-10 feet and rising.

Over seven feet and rising at Pittsburgh yesterday.

Keystone State up for Pittsburgh last night, and Bonanza from Pomeroy down with good trip.

Hudson from Pittsburgh and Congo from Pomeroy down to-night. The Congo enters the Memphis trade tomorrow.

New River was rising at Hinton yesterday with two feet on marks. This ought to make a good stage in the Kanawha.

The Bostona will resume her place in the Pomeroy trade Saturday. The Congo will be withdrawn and sent to Memphis on that day.

The Telegraph delayed by business passed down yesterday at 10 a. m. One item of her freight was 1,700 sacks of salt. She returned to Pomeroy last night.

The St. Lawrence came in early this morning from Cincinnati and takes a big shipment of plows from the James H. Hall Company's factory, for reshipment South.

Captain George Edgington has bought of Captain Williamson the steamer Reliance. The M. P. Wells, now receiving repairs, will take the Reliance's old trade between Rome and Portsmouth, and the Reliance will be the Maysville and Augusta packet.

Captain John A. Wood, the veteran towboat man of Pittsburgh, is in town, having come from Cheshire, Ohio, where he raised four barges sunk by one of his steamers on last rise. The Dave Wood took the four barges down this morning. This same Captain John A. Wood, some twenty years ago, raised the steamer John A. Wood that sunk out of sight below New Orleans. He is a big coal operator, owns many towboats, is a practical wrecker and diver and an all-around business hustler.

Three Sensational Sermons.

Rev. Fred D. Hale, formerly of Louisville, but now pastor of the First Baptist Church of Owensboro, and well known in Maysville, has created a sensation in Owensboro with three sermons he preached there last Sunday, according to the Messenger of that place.

At the morning service he denounced football, in the afternoon he spoke against drinking, dancing, gambling and other worldly amusements. He asked those who would forego these pleasures to rise, and many stood up. He then bade the janitor to turn on the lights so that those who remained seated might be well seen in their shame.

At the night service Mr. Hale told the congregation that he did not want his church members to go to other churches and that he did not want anybody belonging to another church to come to his place of worship. He was very vehement in his talk, and his congregation is still gossiping about it.

KNOWLEDGE

Brings comfort and improvement and tends to personal enjoyment when rightly used. The many, who live better than others and enjoy life more, with less expenditure, by more promptly adapting the world's best products to the needs of physical being, will attest the value to health of the pure liquid laxative principles embraced in the remedy, Syrup of Figs.

Its excellence is due to its presenting in the form most acceptable and pleasant to the taste, the refreshing and truly beneficial properties of a perfect laxative; effectually cleansing the system, dispelling colds, headaches and fevers and permanently curing constipation. It has given satisfaction to millions and met with the approval of the medical profession, because it acts on the Kidneys, Liver and Bowels without weakening them and it is perfectly free from every objectionable substance. Syrup of Figs is for sale by all druggists in 50c and \$1 bottles, but it is manufactured by the California Fig Syrup Co. only, whose name is printed on every package, also the name, Syrup of Figs, and being well informed, you will not accept any substitute if offered.
